

# Governance and Compliance Made Simple

Developer Tools for Financial Services

Over  
**\$321**  
BILLION

Fines imposed globally for non-compliance with financial regulations since the 2008 financial crisis.

Apryse Software Development Kits (SDKs) offer a feature rich and cost-effective toolkit for managing governance and compliance of financial documentation and workflows.

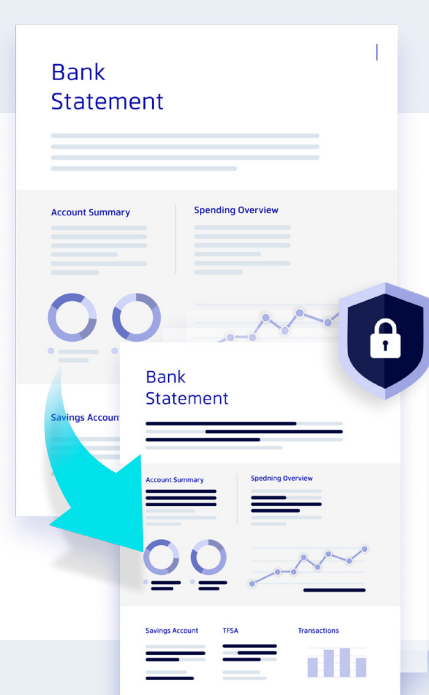

## The Apryse Developer Suite Enables:

Efficiently archive and retrieve data with advanced indexing and search capabilities, ensuring compliance with evolving regulations.

Safeguard sensitive information through encryption and redaction tools, minimizing the risk of data breaches and enhancing customer trust.

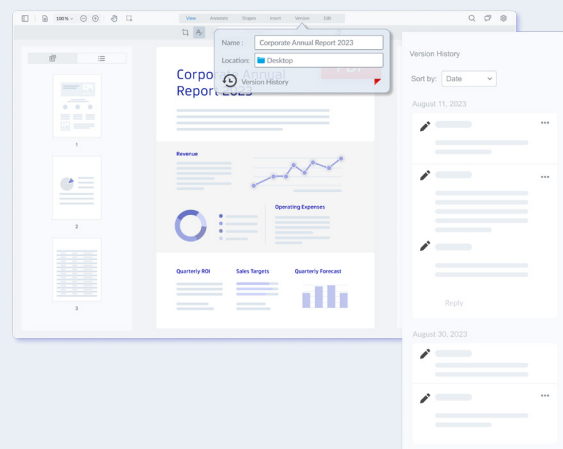

Seamlessly integrate KYC processes to accelerate compliant customer onboarding.

Create inclusive, accessible documents to comply with regulations and enhance brand image for a wider market reach.

Streamline version control, track changes, and manage document revisions.

Finance companies are data companies.

Make sure that data is compliant by trusting experts with over 30+ years of international document software experience.
