

Uncover the Potential of PDF/UA in the Public Sector

Transforming Digital Services for Citizens and Employees

Living in a ‘Digital First’ era has reshaped technology interactions. **Ernst & Young** notes up to 70% of citizens find technology enhances public service relations. Apryse leads this shift by offering developers the most comprehensive software development kits (SDKs) on the market. Generate PDF/UA compliant documents, plus easily view, edit, annotate, redact, sign, convert, and more without any third party dependencies.

Challenges We’re Faced With

Legacy Systems Overhaul

Tackling the complexity of outdated systems.

Data Extraction

Extracting massive paper-based data into accessible digital formats.

Regulatory Compliance

Keeping pace with complex and increasingly strict regulations.

Apryse’s Solution

Powerful document processing with cross-platform compatibility and collaboration features.

- ✓ **Easy-to-Deploy:** Integrate SDKs with web, mobile, and server systems with just a few lines of code.
- ✓ **Versatile:** Compatible with applications using virtually any language, framework, or browser.
- ✓ **Customizable UI:** Tailor your interface to meet diverse agency requirements.
- ✓ **Adaptability:** Be prepared to keep up with future regulations and technological advancements.
- ✓ **Security:** No external dependencies & in-house deployment ensures data never leaves your platform.
- ✓ **Accessibility:** Provide a standards-compliant UI experience out of the box.

Why Choose Apryse for Government Digital Transformation?

With a 61% total gap reported in citizen satisfaction between high and low performing governments, it’s becoming increasingly obvious that change does work; but it needs to be done right. Apryse offers secure, scalable solutions that enhance citizen engagement, promote collaboration, and improve internal efficiencies through:

Diversified Access to Services

Serve citizens more effectively with modernized digital solutions.

Productivity Boosts

Ease the internal training/ adoption process with one comprehensive system.

Regulatory Readiness

Stay ahead of the curve with adaptable, compliant technologies.
